

Resume Preparation Form

Fill out the sections below. The information you provide will help you build a strong resume in the coming weeks.

1. Skills Inventory

List both technical and soft skills that you possess.

- **Technical Skills (e.g., software, tools, languages):**

Web Development: -

1. Backend -
Laravel, PHP
2. Frontend –
JavaScript, CSS, Vue.js, Bootstrap, Tailwind

App Development: - Java

Artificial Intelligence: - Face detection and recognition, Person detection (Python)

Database: - MySQL

API – Axios, Fetch, Ajax

Tools: - GitHub, Visual Studio Code, PyCharm, Laragon, HeidiSql, Xampp

Language: - Malay, English, Tamil

- **Soft Skills (e.g., communication, leadership, problem-solving):**

Adaptability, Communication, Time Management, Problem-Solving, Critical Thinking, Teamwork, Leadership

2. Achievements and Accomplishments

List any awards, recognitions, or special achievements from academic, extracurricular, or personal endeavors.

Achievements/Accomplishments:

Dean's Award (All Years)

Recognized for outstanding academic performance throughout all academic years.

Committee Member – ITC Club

Actively contributed to the club's activities, event planning, and student engagement initiatives.

3. Professional Summary or Objective Statement

Write a brief professional summary (2-3 sentences) highlighting your career goals and key strengths.

- **Professional Summary/Objective Statement:**

A highly motivated software engineering student with expertise in web development, specializing in Laravel (PHP) for backend and JavaScript, Vue.js, CSS, Bootstrap, and Tailwind for frontend. Proficient in Java for app development and experienced in artificial intelligence, including face detection, recognition, and person detection using Python. Skilled in MySQL database management, API integration (Axios, Fetch, Ajax), and various development tools like GitHub, Visual Studio Code, PyCharm, Laragon, HeidiSQL, and XAMPP. Passionate about building efficient, user-friendly systems and continuously expanding technical knowledge.

4. Experience/Project Descriptions

List relevant work experiences or projects. For each, include the role/title, your contributions, and any quantifiable outcomes (if applicable).

- **Experience/Project 1:**

Role/Project Name: Hotel Reservation System

Description/Responsibilities: It project build on my diploma as a course project.

Key Achievements/Results (if any): Understand about the CSS, and also PHP and able integrate with database.

- **Experience/Project 2:**

Role/Project Name: Home Exercise app

Description/Responsibilities: It was my final year project for diploma.

Key Achievements/Results (if any): I able understand creating app and integrate Firebase.

- **Experience/Project 3:**

Role/Project Name: Online Course Management Web System

Description/Responsibilities: It was built when I do intern at Legoom Circle.

Key Achievements/Results (if any): I able understand cleaner way to code and give important to security and scalability.

- **Experience/Project 4:**

Role/Project Name: Car Wash Booking Web System

Description/Responsibilities: It a project for one of my degree projects.

- **Experience/Project 5:**
Role/Project Name: Export and Import good management system
Description/Responsibilities: It a project for one of my degree projects.
- **Experience/Project 6:**
Role/Project Name: E-commerce dress selling system
Description/Responsibilities: It a project for one of my degree projects.
- **Experience/Project 7:**
Role/Project Name: Deep Learning Occupancy Management System
Description/Responsibilities: It is my final year project where it has face detection and person counting to manage the occupancy in library.

5. References List

Provide contact information for at least 2-3 people who can serve as references (teachers, mentors, supervisors, etc.).

- **Reference 1:**
Name: Vivegananathan A/L Sundarajoo
Relationship: Father **Phone/Email:** 016-780-3905
- **Reference 2:**
Name: Vigneswary A/P N.Rajoo **Phone/Email:** 018-2414655

6. Certifications and Courses

List any certifications, online courses, or workshops you have completed that are relevant to your career.

- **Certification/Course 1:**
Name: <https://www.freecodecamp.org/certification/GAAJENDREN/javascript-algorithms-and-data-structures>
Institution/Organization: FreeCodeCamp
Completion Date: September 9, 2023
- **Certification/Course 2:**
Name: JavaScript (Basic)
Institution/Organization: https://www.hackerrank.com/certificates/616ce73ca91c_
Completion Date: 14 Oct 2023

7. Volunteer Work and Extracurricular Activities

List any volunteer work, student organizations, clubs, or extracurricular activities you have been involved in.

1. Annual Grand Meeting Club ITC 23/24
Organization/Role: Head Committee – University
Description/Contributions: Led and organized the annual meeting, coordinated with committee members, and ensured smooth event execution.
2. Wakil Sukan Antara Fakulti
Organization/Role: Sub Committee – University
Description/Contributions: Assisted in event planning, managed logistics, and supported faculty representatives during the competition.
3. Piala Sukan FSKTM
Organization/Role: Secretary – University
Description/Contributions: Managed event documentation, coordinated meetings, and handled official communications.
4. Career Talk with Job Opportunities: Panduan Karier dan Wawasan Industri Teknologi
Organization/Role: Sub Committee – University
Description/Contributions: Assisted in organizing career talks, liaised with speakers, and ensured smooth event operations.
5. Majlis Anugerah Dekan FSKTM
Organization/Role: Sub Committee – University
Description/Contributions: Contributed to event planning, managed logistics, and coordinated with faculty representatives.

8. Portfolio (If Applicable)

For creative fields: Provide links to any portfolios, writing samples, designs, or code repositories.

- **Portfolio/Work Sample 1:**

Link: <https://www.freecodecamp.org/GAAJENDREN>

Description: Link to my code certificate list

9. Soft Skills Examples

Provide examples from your experiences where you demonstrated soft skills such as leadership, teamwork, communication, or problem-solving.

Example 1:

- **Soft Skill Demonstrated:** Leadership
- **Situation/Context:** As the Head Committee for the Annual Grand Meeting Club ITC 23/24, I was responsible for leading the event planning and execution.
- **What You Did:** Managed a team of organizers, delegated tasks efficiently, and ensured smooth coordination between departments, resulting in a well-executed event.

Example 2:

- Soft Skill Demonstrated: Teamwork & Communication
- Situation/Context: While serving as a Sub Committee member for Wakil Sukan Antara Fakulti, I worked with different faculty representatives to organize and facilitate sports events.
- What You Did: Collaborated with team members to manage logistics, communicated with participants, and resolved last-minute issues to ensure a successful event.

10. Personal Branding Statement

Write a statement that describes who you are and what you're passionate about.

- **Personal Branding Statement:**

A dedicated and proactive software engineering student with a passion for technology, innovation, and problem-solving. Skilled in web development, AI, and system automation, with hands-on experience in real-time occupancy monitoring and deep learning. Committed to continuous learning and contributing to impactful projects that enhance efficiency and user experience.
